PROFESSIONAL SUMMARY

Frontend Developer with experience building responsive user interfaces, WordPress websites, and interactive web applications using HTML, CSS, JavaScript, and Bootstrap. I approach frontend development with a focus on clean code, reusable components, accessibility, and performance rather than simply recreating designs. My portfolio includes projects ranging from dashboard applications to data-driven interfaces that reflect my interest in solving real frontend challenges. Currently strengthening my React skills and seeking an opportunity to grow within a collaborative engineering team.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3, PHP

Frameworks / Libraries: React, React Router, Bootstrap 5, Chart.js, Tailwind CSS

CMS & E-commerce: WordPress, Elementor, Astra, WooCommerce, Yoast SEO

Tools & Platforms: Git, GitHub, Vercel, VS Code, Chrome DevTools

Full Stack (In Progress): Node.js fundamentals, REST APIs - Coding Blocks certification

Other: Data Structures & Algorithms, Figma (basic), Canva, Advanced Excel

WORK EXPERIENCE

Web Developer - Social Emergers

May 2025 - Apr 2026

Delhi, India

- Built and customized **WordPress-based affiliate marketing websites** using Elementor, Astra Theme, and essential plugins.
- Developed **landing pages, sales funnels, and campaign pages** to support lead generation and affiliate marketing.
- Configured **WordPress plugins, Yoast SEO, and forms** while maintaining responsive, user-friendly layouts.
- Applied **HTML, CSS, Bootstrap, and JavaScript** to deliver responsive, cross-browser web pages.
- **Collaborated with the team to maintain websites, implement updates, and deliver client projects on schedule.**

PROJECTS

JobHunter Pro - AI-Powered Job Search Tracker

[*jobhunter-pro-one.vercel.app*](#)

React 19, Vite, React Router, Chart.js, Google Gemini API

- Built a dashboard with a drag-and-drop Kanban board, resume-version tracking, and interview notes - all statedriven from a single data source with no backend.

- Layered in Gemini-powered resume-match scoring and interview-question generation, with a demo mode that works without an API key.

SpendSmart Pro - Personal Finance Dashboard

spendsmart-pro.vercel.app

React, Vite, Chart.js, Local Storage

- Developed a client-side finance tracker with full transaction CRUD, budget planning, and savings goals - persisted entirely via Local Storage, no backend.
- Built real-time Chart.js visualisations (pie, bar, line) for spending trends and a computed financial health score.

Nexus 2026 - Conference Event Landing Page

nexus-2026-event.vercel.app

HTML5, CSS3, Bootstrap 5, Vanilla JavaScript

- Built a fully responsive landing page - zero JS frameworks - with a live countdown timer, tabbed 3-day schedule, and live speaker search.
- Handled all interactivity with vanilla DOM manipulation; deployed to Vercel via GitHub CI.

EDUCATION

Bachelor of Computer Applications (BCA) - Maharishi Dayanand University

2022 – Present

Senior Secondary - CBSE (Class XII) - Sarvodaya Kanya Vidyalaya

2022

Secondary - CBSE (Class X) - Sarvodaya Kanya Vidyalaya

2020

CERTIFICATIONS

Full Stack Developer (In Progress) - Coding Blocks

Data Structures & Algorithms - Coding Blocks

Higher Diploma in Computer Science (HDCS) - Nice Web Technologies
