PROFESSIONAL SUMMARY

Frontend Developer with hands-on experience in responsive user interface design and development. I build WordPress sites and applications that solve real-world problems using HTML, CSS, JS, and Bootstrap. My focus is on progressive enhancement and accessible UI/UX rather than recreating PSDs. You'll find examples of my work in the Projects section, including dashboards that showcase my frontend problem-solving skills. I'm currently expanding my React expertise and looking to contribute to a collaborative engineering environment.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3, PHP

Frameworks / Libraries: React, Bootstrap 5, Chart.js, Tailwind CSS

CMS & E-commerce: WordPress, Elementor, Astra, WooCommerce, Yoast SEO

Tools & Platforms: Git, GitHub, Vercel, VS Code, Chrome DevTools

WORK EXPERIENCE

Web Developer – Social Emerger Web Solutions | Oct 2025 – Oct 2026

- Built and customized WordPress websites and affiliate marketing funnels using Elementor, Astra, WooCommerce and custom HTML/CSS/JS where the CMS fell short.
- Designed and developed landing pages and multi-step sales funnels for lead generation campaigns with SEO (Yoast), responsive design and cross-browser testing.
- Collaborated directly with clients to understand business requirements and deliver functional websites while balancing multiple projects with tight deadlines.
- Created custom JS elements to extend Elementor's capabilities beyond no-code page builder limitations.

PROJECTS

SpendSmart Pro
Client-side personal finance dashboard with full transaction CRUD, budget planning, and savings goals, persisted entirely via Local Storage with no backend. Built real-time Chart.js visualizations (pie, bar, line) for spending trends and a computed financial health score.
Tech: React, Vite, Chart.js, Local Storage

Nexus 2026
Fully responsive conference event landing page built with zero JS frameworks, featuring a live countdown timer, tabbed 3-day schedule, and live speaker search. Handled all interactivity with vanilla DOM manipulation; deployed to Vercel via GitHub CI.
Tech: HTML5, CSS3, Bootstrap 5, Vanilla JavaScript

EDUCATION & CERTIFICATIONS

Bachelor of Computer Applications (BCA) – Maharishi Dayanand University | *2022 – Present*

Data Structures & Algorithms – Coding Blocks

Full Stack Developer (In Progress) – Coding Blocks
